High performance, industrial grade heat reflective paint specifically developed for the Window and Door Industry.

13 popular colours to choose from. *We have made every attempt to accurately interpret the colours as closely as possible. However, the **colours shown here may vary** from an actual application due to fluctuations in the printing process.*

5 year warranty – protection from fading, cracking, peeling.

CAUTION: Dark colours should not be used on door lite frames with south or west exposures, if a storm door is ever to be installed.
