BRICKMOULD - full sized to accept storm door applications. Mitres - bonded, plus permanently secured by the **RIGID-LOC® BOWTIE™** fastening system.

EKTACRON® The new pinnacle of Maintenance Free

DOOR LITES wide selection allows you to choose something you will be proud to own.

DOOR LITE FRAMES - made from Non Yellowing High Strength Material - PVC or Polypropylene. Never needs painting and will not break down under the sun's UV light.

BALL BEARING HINGES for long lasting ease of operation.

Fully adjustable **SECURITY STRIKE PLATE**, keeps door slab snug to weather strip, plus excellent protection against forced entry.

Long reach compression WEATHER STRIP on both sides and top. Corners are formed & fitted for superior weather tite performance. Plus an adjustable multi fin sweep, and corner dust blocks to shut out the harsh elements.

HEAVY DUTY SILL A heavy-duty aluminum clad sill built with a wide thermal break and solid wood core for strength and durability. Sill horns under the brickmould add greater stability.
